RE: Risk Assessment

Good Morning Marty:

I was able to come to an agreement with my neighbor and he will let me remove the tree. After all I went through he didn't even request the assessment or look at my property line boundary. Oh well I am able to get the tree taken out and that is all that matters. I really appreciate your help with this matter and I will most certainly recommend you to anyone I know who could use your assistance. I will mail out the check for the assessment today so you should have it by Tuesday.

Thanks again

P.S. I have dubbed you to all my friends as the tree whisperer.
